EDUCATION

Jagannath University, Jaipur B.Tech in Computer Science Engineering SGPA: 7.85	(2023 – 2027)
Bihar School Examination Board Intermediate – 65%	(2021 – 2023)
Bihar School Examination Board Matriculation – 55.6%	(2020 – 2021)

COURSEWORK

- Data Structure & Algorithms (DSA)
- Network Security
- Artificial Intelligence
- Object Oriented Programming (OOP)
- Database Management System (DBMS)

PROJECTS

Food Delivery Web App | React.js, CSS (March 2026)

- Developed a responsive food ordering web app with add/remove cart functionality and delivery address form
- Designed interactive UI for smooth user experience (Frontend-focused)

Live: <https://ali-food-del.netlify.app/>

Personal Portfolio Website | HTML, CSS, JavaScript (July 2025)

- Built a responsive portfolio to showcase projects, skills, and contact details
- Deployed using GitHub Pages for professional online presence

Live: https://alijafar000.github.io/jafar_portfolio/

Employee Management System | React.js, Tailwind CSS, Firebase (August 2025)

- Developed a role-based system with admin and employee dashboards
- Implemented task assignment, tracking (accept/complete/fail), and real-time updates
- Integrated database for storing and managing tasks dynamically

Live: <https://jafarali-ems.netlify.app/>

Blog Application | React.js, Tailwind CSS, Appwrite (October 2025)

- Built a full-stack blog app with authentication and CRUD operations
- Implemented image upload and secure data storage using Appwrite

- Designed responsive UI for better user experience

🔗 Live: <https://alijafar-megablog.netlify.app/>

Gemini AI Clone | React.js, CSS, Gemini API

(December 2025)

- Developed an AI-powered chatbot using Gemini API for real-time responses
- Designed interactive chat interface for seamless user interaction

🔗 Live: <https://alijafar-gemini-clone.netlify.app/>

World Atlas App | React.js, CSS, Country API

(January 2026)

- Built a data-driven app to explore country details (population, capital, etc.)
- Implemented search functionality and responsive UI
- Integrated API for dynamic data rendering

🔗 Live: <https://world-atlas-country.netlify.app/>

INTERNSHIP

Cisco – Cyber Security Intern

(Jul 2024 – Aug 2024)

- Gained hands-on experience in identifying and analyzing different types of cyber attacks
- Learned basic security concepts and threat detection techniques

Simplilearn – Frontend Development Intern

(Jul 2025 – Aug 2025)

- Developed foundational skills in HTML, CSS, JavaScript, and React.js
- Built responsive web pages and improved UI development understanding

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Appwrite

Tools: Git, GitHub, VS Code
